Warehouse

CUSTOMIZATION

Optional service for adjusting and changing basic settings from our specialised technicians.

NOTE THAT

The term users refers to user codes that will have access to the system and business data.

Branches are also an option for those who have branches and want to connect them for separate management. You can change your package at any time according to your needs.

If there are different needs than packages can cover, a customized package can be created for you. There are no extra charges for hosting and application support or other hidden costs.

Access to the application is made with the use of a link.

* VAT 24% are not included.

WHAT'S NEXT...

We are already working hard for the Mycloudbiz v2.0 version which will be released in a short time and will contain the following additional features:

- Improved visual arts for better browsing experience.
- Ability to connect with other tax mechanisms of market.
- Improved statistics and informative data.

All our customers will get the new version without extra cost, when it is completed.

GOOD EXPLOITATION OF TECHNOLOGY

Incorporate a modern business environment (ERP) into your business.
